Post-program Survey

The information on this form is being collected to check whether the activity you participated in is helpful and effective for most people. The information you give us will help to plan and provide better programs, so please answer the questions thoughtfully. The information you provide is voluntary – you can skip any questions you don't want to answer, and you can stop at any time.

You were asked to fill in this form before you started, and now, again, after you finished. Your name and birth date will **not** be connected to the answers you give on these forms. Please be sure to tear off the bottom part of this page **before** you hand back the filled out form. This will ensure that nobody knows which survey is yours.
